CASE STUDY · DIGITALIZATION

MPI Document Automation

A digital-first approach to accurate and traceable Magnetic Particle Inspection.

Inspection data captured on mobile

01

Login & select type

Log in and select the required MPI process.

02

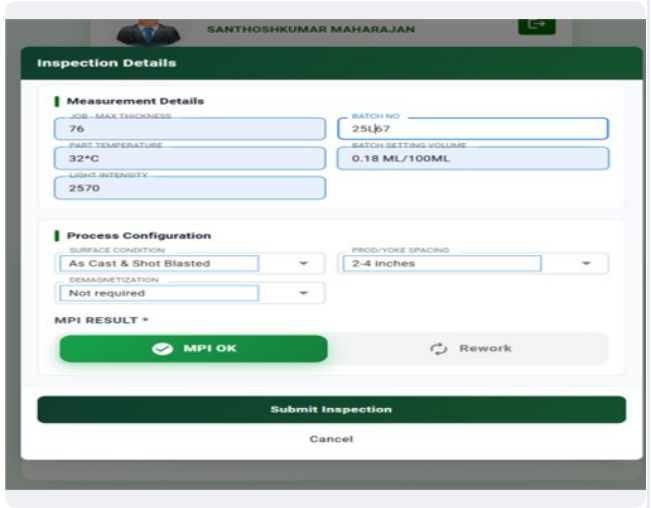

Choose inspection

Select inspection type and stage.

03

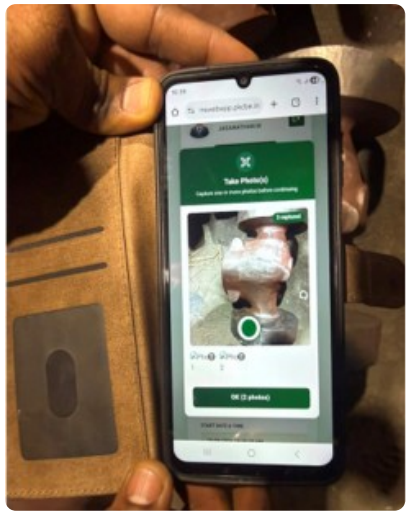

Enter inspection details

Enter measurement and process details, then submit.

04

Capture image

Capture casting photo(s) at the inspection point.

What the digital workflow delivers

Faster documentation

Less manual paperwork and faster reporting.

Accurate & traceable

Photo evidence helps locate defects precisely.

Smart automation

Mobile data supports consolidated documentation.
